California Healthy Kids Survey

The California Healthy Kids Survey (CHKS) is the largest statewide survey of resiliency, protective factors, risk behaviors, and school climate in the nation. Across California, the CHKS has led to a better understanding of the relationship between students' health behaviors and academic performance, and is frequently cited by state policymakers and the media as a critical component of school improvement efforts to help guide the development of more effective health, prevention, and youth development programs.

The CHKS survey will be administered to all 9th and 11th grade students at Amador. Parent consent for participation was obtained during the Q Registration process. **Freshmen** will take the survey in **PE** classes on **October 25 and 26** and **Juniors** will take it during **ACCESS** period on **October 26**.
